BECOME A PEER MENTOR

Maseeh College of Engineering and Computer Science
PORTLAND STATE UNIVERSITY

PROGRAM: Scholars for Success in STEM

The Scholars for Success in STEM (S3) program provides an opportunity for incoming students from diverse backgrounds to equip themselves with the skills and resources needed to successfully earn a degree in STEM. S3 seeks to build a supportive learning community for students and eliminate barriers to higher education.

JOB: Peer Mentor

We are seeking undergraduate students to serve as mentors to traditionally underrepresented students majoring in ENG & CS. Peer mentors will assist the program coordinator in helping students understand what can be expected from their college experience, build community, and help guide and support students through fall and winter terms.

YOU: QUALIFICATIONS & COMPETENCIES

- Full time MCECS undergraduate in good academic standing
- Enrolled at PSU for at least 1 year
- Strong interpersonal and communication skills
- Demonstrated skill in working and collaborating in diverse, multicultural, and inclusive settings
- Ability to build relationships emphasizing trust and reliability, willingness to initiate conversations and maintain regular communication with mentees
- Ability to encourage and support mentees’ academic and personal interests
- Facilitate problem solving through active listening, guidance, and conflict resolution
