Engineering Mock Interviews
Hosted by IEEE PSU Student Branch

Join us as we match students with experienced engineers and hiring managers in a mock interview event. We will be pairing students with interviewers from companies such as ANSYS, Intel, TSSI, and others for several 20-30 minute interview sessions focusing on a variety of specializations within engineering.

Interviews will be RSVP only. Send an email to ieee.psu@gmail.com to make sure you’re on the mailing list. Invitations will be sent out to the mailing list soon, and reservations will be made on a first-come first-served basis as interview slots will be limited.

Event held on Friday, May 31 2019 12–3 PM
Interviews in various rooms in EB and FAB

Join us as we move towards our greatest potential!
